THE PERFECTION OF PREPARED COCOA.

SOLE PROPRIETORS, TAYLOR BROTHERS. LUNDON.

TIRIX COCOA (OR CACAO) OF MARKA-VILLA is the true THEORIUMA LINNÆU4. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHMIS having secured too exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so underlably the perfection of prepared doesa, that it has not only secured the preference of homospaths and cocoa-vinkers enerally, but many who had hitherton not found any preparat on to suit them, have after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, lunchon, &c.

"AN UNPRECEDENTED SUCCESS."

"AN UNPRECEDENTED SUCCESS."

See fellowing Extract from the Globe of May 14, 1808.

"Various importers and manufacturers have attempted to attein a reputation for their prepared Cocous, but we doubt whether any thorough success had been achieved until Messra. Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the filest of all species of the Theobroma, they have produced an article vibile, rupersedue every other Coroa, is the market. Entire solubility, a delicate aromanda arrace concentration of the purset elemants of nutrition, distinguish the Maravilla Cocoa above all others for Homosopaths and invalies we could not recommed a more agreeable or, valuable boverage."

Sold to packets soul by Auligrocers, of whom also may

Thursday Morning, Oct 21, 1869. Confederation. Now that it is definitely understood -conceded by all parties that Confederation is our destiny, that it is desired by the great bulk of the colonists, it will be well to make the public mind as familiar as possible with the whole subject, in all its bearings and possible consequences. It is very possible, indeed, highly probable that some degree of prejudice may have been created against Confederation by the reckless assertions sometimes made by illinformed, but for the most part designing persons. Very great prominence has been given to the revenues which would go into the Federal treasury, while compensating pecuniary advantages are carefully kept in the back-ground. For instance, great stress is laid upon the fact that the receipts of Custom-, the chief source of present Colonial revenue, will, under C nfederation, go into the Dominton Treasury; and occasional y persons have been found willing to go the length of asserting, with an air of well feigned horior, that all present sources of enue will thus be taken away, and that we shall be compelled to have recourse to fresh direct taxation for the means of sustaining the local government. Now, there is just enough of truth in this to is vest it with an element of possible danger. The Customs receipts will unquestionably become Federal revenue, and thus a source of revenue which, under the present tariff, produces something like \$350 000 a year, will be taken out of our hands as a Province, though we shall still retain a common interest as a part of the great whole. But it should be borne in mind that if the Customs revenue is taken by the Federal Government, that government assumes the expense and responsibility of collecting and protecting it. Nor should it be forgotten that under the Canadian tariff the revenue derived from that source will lose its present proportions; and thus the people will escape a large amount of taxation. Not only would taxation upon foreign articles of consumption be greatly lightened, but the recessity for consuming foreign productions would be materially less-ened, insamuch as the products and manufactures of all the Provinces being admitted free, there would enter largely into local consumption. Thus it will be observed that under Confederation the Customs revenue would be a very dilferent affair from what it is under the present system; and that differen e would be all in our favor. We may be told that the Customs revenue would increase with the increase of population and development. Undoubtedly it would, but so would our share of Federal expenditure increase, and every other source of revenue and wellbeing would increase in an equal ratio, nay in a far greater ratio, for it should be remembered that the fiscal policy of the Dominion is one of gradual approximation towards free trade, and that this class of taxation must become lighter as its base expands. Thoo, again, look at what we shall get in return. If the Dominion Government does take away the customs revenue it will give us back a dollar and a balf for every one it takes, at least for some year-to came. But we utterly demur to the proposition that in taking this the Dominion Government takes away our sole means of revenue, leaving us to fresh direct taxation for the support of the Provincial Government. We derive \$65,000 a year from Rold Tolls. Would the Dominion Government touch that? We derive \$15,000 from Crown Lands. Would the Dominion Government touch We derive \$12,000 from M ner's Certificates. Would the Dominion Government touch that? We derive \$18,-Certificates. Would that? We derive \$18,-000 from Mining Receipts General. Would the Diminion Government touch We derive \$50 000 from Trading and other Licen es. Would the Domina ion Government touch that? We derive \$10,000 from Fines, Fees and Forfeitures. Would the Dominion Govern-\$170,000 of revenue is produced every year, and which, under Confederation, would soon produce double or treble Why, then, sh ul; such a piteous how be raised about our being left without any source of revenue for local pur-poses? But we have confined these remarks to one phase of the subject. It must be left to another article to point out a few of those things which the Dominion Government will do for us.

And, in deali g with this whole subject,
we would have our readers understand that our object is less to present arguments in favor of Confederation than to seek to dispel the mist and misappreheusion which, in some minds at least surrounds a subject of present importance. We are rather dealing with a subject forced upon our attention by the arbitrary and inexorable logic of events than seeking to persuade the public that what we regard as inevitable destiny, is a condition to be desired. are firmly convinced that Confederation can be coupled with such conditions as will make it a great boon to us, if the people have only sense enough to improve the occasion which now presents itself. The great majority of the colonists believe us we do; and if there are still those who honestly hold contrary

by this time, we imagine, that the quesa tion virtually before us to decide is not "Shall we have Confederation?" but, "How shall we have it?" It will still be remembered how some stood out to the last against the union of there two colonies; and although the same amount of pressure was not brought to bear on that oc-casion as will, if ne essary, be brought o bear in order to drive us into a larger union, yet all acquainted with the merits of the case must feel that had the people of Vancouver Island approached the subject of union with the Mainland diferently, and had they considered the conditions of that union in time and in united and business-like way, fewer sacrifices would have been made, and the result would have been very different to both sections. In the matter of he larger and infinitely more important union now staring us in the face, let the people endeavor to avoid a repetition of past errors. Let no man, from a feeling of morbid antipathy, refuse to negotiate for terms while yet we have the opportunity. Admit the very worst. Lee us regard ourselves in the light of a beleagured city, and all hope of holding out vanished. Sur ly it would be true wisdom on our part to improve the opportunity afforded to make the best terms of capitulation. But Canada does not come to us in the form of an enemy. She comes a true friend, and that in the time of our need Tine, the Imperial Government will be prepared, if need be, to apply a little gentle coersion; but that, to a foolish and wayward child that does not know what is for its own good, can hardly be regarded as the act of an enemy.

California Immigration Movement. California would appear to have become thoroughly alive to the importance of increasing its population, and active steps are being taken to accomplish that object. Mr. Bell, for some time connected with the press of this city, and subsequently with that of San Francisco, has been engaged to "stump" the State for the purpose of working up the scheme. It appears that the Pacific Railroad is now transporting immigrant passengers through from New York to San Francisco at \$75 in greenbacke; and from Omaha for \$42, and it is said that the number of emmigrants has for some time past averaged one hundred a day, but these for the most part do not come through to California. Many stop at Utah, and Nevada, while others turn off into the northern Terria tories. This condition of things is by no means satisfactory to the Bay State; bence the present movement to aid and induce immigrants to come through. Amongst the obstacles is mentioned that of large traces of land being held by speculators, and it is suggested that the necessary and legitimate oure for men who will lock up their seventy-five or hundred thousand acres and refuse to improve itor sell, unless at high prices, RUM-Jamaica, in bbls. hhds and phns is a good, smart land tax. The people of California are suffering from an evil common to most new countries, and not uncommon in some old ones, but of the remedy suggested be faithfully applied there is no doubt that it will prove effectual. The people of California are going in for half a million of immigrants, and there is every probability that they will succeed in getting them; but we are disposed to think that the railway fare must come down to \$50, before there can be any very large immigration movement overland from the east. We, of British Columbia, apparently unterly helpless as far as any immigration scheme of our own is concerned, took upon this activity in California with compacency. Any great movement of population from the Atlantic to the Pacific side of the continent brings the gentres of population nearer to us, and we are certain, sooner or later, to get the spray from the great wave. Much, even in this, cannot, nowever, be expec ed until communication between this Colony and San Francisco shall have undergene material improvement touch that? Here, then, we have ment, and to this object should the atleft wholly untouched by the Dominion tention of our Government be at once Government sources from which, even directed. Surely we have as good a under present d pression and stagnation. field for, and as much need of, population as California; and as we cannot aim at the inauguration of any large, and complete scheme of our own it will not be very credible to us if we have not sufficient vitality to utilize the reflex benefit of contiguous development.

pleasing programme be performed, the lovers of music, and rational amusement, have a rich treat in store for them, to while away the tedium of the dreary winter months; and it needs no prophet to foretell, that the fair workers will be the most popular branch of the little army of collectors.

THE NEW CHANCELL R. - It would appear from recent Canadian exchanges that Sir Figners Hincks has really accepted the port-Francis Hincks has really accepted the portfolio recently given up by the Hon Mr Rose, and has, consequently, decided to re-enter active poil ical life in Canada, the scene of past joys and sorrows. This is to us more a matter of surprise than regret. Sir Francis has for many years occupied the higher position of Colonial Governor, with credit and success, and his services have been duly recognised and honored by his Sovereign. There can be no question about the administrative ability of Sir Francis; but whether his talents lie in the direction of financeering or not we cannot say. The Opposition press is disposed to be very severe upon him. The Globe, especially, is industriously engaged in Globe, especially, is industriously engaged in digging up all his old political sins, and relating them up in dread array; but we are disposed to think that if the principle on a certain occasion applied with such signal effect to the case of an unfortuate woman caught tripping, were applied to Sir Fraccis there would not be found in Canada many men of thirty year's public life annuled to Globe, especially, is industriously engaged in men of thirty year's public life entitled to cast the first stone at him.

BURRARD INLET - The stenmer Emma arrived on Sunday evening from Nanaimo, after towing out the Shooting Star from that place; she sailed again for Nanaimo at noon on Menday... The Isabel got ashore on Friday hast, ouring the deuse fog, at a place about 500 yards to the southward of the Nanepin rook, just outside of the first narrows, in English Bay. She is lying head on to the beach, and evidently in a dangerous position; her fore part is not touching the beach, there ledge a rock under her about a dehips. Up to 2 p. m., yesterday, the attempts made to get her off had failed; there is a report that there are holes in her bottom.... At the B. C. & V. I. Mills the Gem of the Ocean had finished loading, on Thursday, for San Francisco; she is waiting for a steamer to tow her out.... At Moody's, the barks Ruby and Delaware are loading, the latter is nearly tull.—Guardian, 20th. towing out the Shooting Star from that

FROM NEW WESTMINSTER .- The steamer Enterprise, Capt. Swanson, arrived from Enterprise, Capt. Swanson, arrived from New Westminster at 5 o'clock last evening. She brought 80 passengers, amongst whom were the Hop P O'Reilly and Mrs O'Reilly, Mrs Trutch, Rev W Aitken, Hon G A 'Walkem Mr and Mrs Miller and Mr. Chadery, [Sumass.] H P Walker, A R Robertson, C Pocley, W J Armstrong, H Nelson, T Moody. The steamer also brought Barnard's Oariboo Express, with \$40 000 in bank treasure, and 55 bales of H B Co furs, 60 bariels cranberries, 6 borsee and a cow. There were amongst the passengers a number of Chinamen, just down from the diggings.

Police Court. - Little interest was evoked in this court yesterday. A half-breed, named Alexander Gabriel, arrested by officer Mc-Alexander Gabriel, creased by officer Mo-Millan, on a charge of selling liquor to In-dians, was put on his trial, and pleaded guity. Gabriel having been up before the Magistrate on soveral previous occasions, was sentenced to pay a fine of \$100. or in default 4 months' imprisonment with thard labor. An Indian named Peter was charged with as-sentling an Indian woman. He pleaded saulting an Indian woman. He pleaded guilty and was fixed \$10, or in default imprisonment for one month.

THE REPORT .- In another column will be found the report of the Exhibition Committee, duly audited. It wil be seen by it that the Committee succeeded in raising the sum of \$21567 56, certainly no mean sum considering the depressed times and the circumscribed surface they had to operate upon. Of that sum all was expended with the exception of \$87 81,—a nice little "nost-egg" for future operations. The gentlemen composing the Committee assuredly deserve the thanks of the public.

Bux It and Tay It.—Russell's celebrated coffee. The best on the C.ast. Warranted content and healthful beverage.

CHEAP SHAVING—Fred, Payne, Tonsoria Artist, Johnson Street above Miner's Sation. Shaving 12½ cents; Hair Cutting, 25 cents.

Cariboo

We compile the following condensed sum mary from the Sentinel of the 6th and 9th iost:

MINING INTELLIGENCE.

On Williams creek nearly all the claims had suffered by the freshet, in consequence of which the week's operations were limited. Three men in the Sheepskin shaft had a narrow escape owing to the water breaking in upon them. The Bradley-Nicholson co, suffered mere depend on the spaint fully two mouth's fered much damage, losing fully two mouth's work. The only company which cleaued up for the week was the Downle, 50 oz for three day's work. In Cooklin's guich the Felix co washed up 103 oz; the McDowell co 65 oz and several other co's smaller quantities. In Stout's gulch the Taffyrle co washed up 130 oz. The Coombe' were running a tunnel, and only took out 6 oz. For three subsequent days 128 oz. On Stevens' creek there were some lair yields.

MISCELLANEOUS INTELLIGENCE.

MISCELLANEOUS INTELLIGENCE.

The new Governor's name has been given to a mining claim in Cariboo. On the night of the 6th a fire occurred in Chinatown, Barkerville, a stovepipe having communicated, he fire to the ceiling of a gamblind house. In less than five minutes the Fire Brigade had a stream of water playing on the burning tenament, spuedily quenoning the fire. The firemen displayed great presence of mind, and good discipline. The gold assayed in the government office was large in proportion to the yield of the mines. Intelligence had been received from the exploring party that went up the rivera few months ago McKonzie had arrived at Fort George from Stewart Lake with the intelligence that "big gold" had been struck, but the report "big gold" had been struck, but the report was not very circumstantial. Mr Brown, of the Coombs co, shot a very large bird, measuring eight feet from tip to tip of the wings. The Steele, or Califortia claim, above the canyon, on Williams creek, changed hands for \$350. Last year it yielded \$7,000

ACCEPTED .- According to information received from England, the Hon WA G Young has accepted the appointment of As istant Colonial Secretary for Jamaica, and was colonial Secretary for Jamaica, and was about to sail for that Colony. Mr Young's position and services in this Colony would appear to entitle him to expect promotion, and the Jamaica appointment can hardly be regarded in that light, although, doubtiess, £800 a year is better in Jamaica than in British Columbia; but as the West Indian colonies are shortly to be confederated the was to promotion will doubtiess be open to him under the new system.

CONTRACT THROWN UP .- M. C. Humber & Co., to whom was awarded the contract for the stone and brick-work of the new French Hotel have thrown up their contract. and in consequence it has been awarded to Kinsman & Styles, who will proceed with the building. The work of excavation will commence the morning. We learn that the contract for the carpenter work has been awarded to Messrs. Hayward & Jenkinson.

CLINTON. -The Assizes were held at Clinton on the 11th. The only case of interest was that of Richard Curnow vs. M. J. Toy, bringing a suit for wages. The plaintiff get a verdict for \$4,200, Hon. G. A. Walken was counsel for plaintiff, and A. R. Robertson Esq., for defendant,

A BEAUTIFUL HORSE. - When on the Mainland, Governor Musgrave selected a very fine riding-horse from Mr. Barnard's extensive stud, and brought it down for his use

ASHOROFT FALL RACES .-- The fall races came off at Ashcroft last week. In the first race 7 horses started, Dr. Englishe's mare winning stakes (\$2,300). In the second race Greyhound won (\$175). Greyhound was not permitted to run in the first race.

On Dir.-That the Legislative Council will be convened about the middle of November for a straight vote on Confederation, which will be the main topic of the speach from the throne.

YALE Assize .- Chief Justice Begbie held Court at Yale on Monday. The only case of importance was that of an Indian charged with shooting at Mr. Allway, with intent. He was sertenced to be hanged!

AFLOAT .- We are glad to learn that the str. Isabel, alluded to elsowhere as being ashore in English Bay, was got off yesterday morning, and is little, if any the worse for the accident.

FROM SAN JUAN .- The steam r Emily Harris returned from San Juan Island last evening, brigging Lieutenant Ioman and some other officers from the British camp.

For Comox .- The steamer Emma will eail on Saturday morning at 7 c'clock for Comox, calting at Nanaimo and all the way

OFFICIAL DINNER ernor Musgrave entertained a number of his officers at Government House, on Tuesday evening.

LONDON HOUSE .- 'Rich and rare' are the dry and millinery goods now being opened at dry and millinery goods now being opened at this well known establishment. The goods were selected from the choicest manufactures of Great Britain and France, and came by last express. The stock is now one of the most extensive and best assorted on the coast, The firm have advices from their London partners that in order to send out the latest fashions for winter they are having made especially for them novelties in furs, mantles and millinery, very choice seal jackets, etc. These goods will arrive next steamer. Their winter stock of Alexander gloys are also being made to their order in Paris.

Music, —The nodersigned informs the pub-lic in general that he is the only teacher of the Pianoforte who combines Thorough-bass and Composition with his instruction in music

By Glectric Telegnaph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES:

Europe.

PARIS, Oct 17—All the Opposition Deputies of the Corps Legislatiff will meet to-morrow to draw up a manifesto.

Rumors continue to circulate in regard to a modification of the Ministry, and a return of M. Roober to the Cabinet with a liberal operation is appeared.

a modification of the Ministry, and a return of M. Roober to the Cabinet with a liberal programme, is spoken of.

The strike of merchant's clerks is quite general. The clerks were quite orderly and nothing had occured since the commencement of the movement to provoke the interference of the police.

Advices from Paraguay represent that President Lopez has established new lines of defence as San Establishes, where he has a considerable force of men and plenty of artilery. The allies are unable to continue the pursuit for want of boxes and mules, but they will resume operations as soon as their army is reorganized.

Madrid, Oct 16—Valencia still holds out ngainst the national troops. The attack, however, will begin this evening unless the insurgents surrender unconditionally. Meantime the insurrection at Beeryial continues. The Republican bands in Cataloria and

The Republican bands in Catalogia and Andulasia have been beaten by the national troops.

The Cortes will be invested with neces-

sary power for the prosecution of the seventeen depublican Deputies who participated in the rebellion.

Madrid, Oct 17—The insurgents of Valencia, atter a battle yesterday, lasting several hours, surrendered unconditionally. The leaders have disappeared but are believed to

be secreted in the city or vicinity. The Government forces now occupy the city. The sittings of the Cortes were suspended without the appointment of a day of reasesembling and it is not known when the session will be resumed.

California.

SAN FRANCISCO, Oct 18-Gold. 1301/4@

140).
Arrived, 16th—Schr Lizzie Durbey, from
Port Discovery. Spiled—Bark W A Banks,

Oregov.

PORTLAND, Oct 20-Steamer Gussie Telfair arrived yesterday morning; stmr Oriflamme sailed last evening.

The Delta of the Fraser.

FROGMORE, Oct 12th 1869.

HON. J. S. HELMCKEN, SIR.—As you appear to take great interest in the settlement of the Lower Fraser, I have taken the liberty to send you a few vegetables, also a small sample of flax and wheat to show you that cauliflowers are not the only things for which this soil is adupted. I planted a small piece of several things this year, merely to see what the soil would produce, and J. find that almost everything would do well that is suitable to this latitude.

In your letter you refer to the overflow; as

suitable to this latitude.

In your letter you refer to the overflow; as to that, I have no fear, I have now spent two summers and one winter here and have not seen more than 1½ feet above the river banks and then as you say it only lasted a very short time. What stock I have, ran out all last winter and done well, they soon find the nighest ground and the lides do not appear to trouble them but very little. The only high tides last winter were the Full Moon of November, December and January, and I fines if we have no wind; the Spring tides fined if we have no wind, the Spring tides do no: overflow the banks, and from my ex-perience here so far, the New Moon in soun-mer and the Full Moon in Winter produce the highest lides.

At present I might say 'I am monarch of ali I survey.' Would it was not so, I do no see that charm in solitude that some might, and would like to see a sottler and family on every quarter section of land on the Lower Fraser and that would be many. There

Lower Fracer and that would be many. There we using the common saying, any quantity of Government land open to pre-emption.

As to the dyking it depends on the piece of land you intend to enclose, what 'twid cost per acre, or if you enclose 640 acres in a square piece it will cost much less than a piece 50 acres. A ditch can be dog 4 feet wide on top 1% in bottom and 3 feet deep for 50 per rod and that being thrown into a dike cannot be packed so close again, consequently the dyke will be somewhat larger than the ditch and that I think sufficient, for a garden and stock-land say a piece of 5 acres that might be made [say 4 feet bigh acres that might be made say 4 feet high and that no dought would keep out all tides. Should the tide come over the sand that is collected, would it not be a benefit? Is not salt water a good fertell er, and there is no danger of it coming over until after your

or ops are secured.

I omitted to me orops are secured.

I omitted to mention that the soil has not been moved over 4 inches deep, nor a particle of manure used where those things grow.

I remain Sir.

Your ob. 't servt,

' WM. H. LADNER.

FELL's COFFEE has become the favorite ! Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains.

French Medicines,

PREPARED BY

GRIMAULT& CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

Tress different medicines represent the most recent medical disoveries, founded on the principles of Chemistry and Therapeuties. They must not be confounded with scoret or quack medicines, as their names audicently indicate their composition; a circumstance which becaused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those aumenous medicines advertised in the public papers as and to corre every possible disease, as they reapplicable only to but a vary few complaints. The most stringent laws exist in France with regard to the sale of monical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficiacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This lact must be a guarantee for

DOCTOR LERAS'

LIQUID PHOSPHATE OF IRON.

The newest and most extremed medicine in cases of a Dhierosts. Pates in the Stomach, Difficult Direction, Dismenorrhen, Animen, General Debitration, Dismenorrhen, Animen, General Debitra and Poorness of Blood.

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to pursons suffering under every kind of debitry whats-ever. It is the preservative of health paracellence, in all warm and relaxang climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect austitute for Cod Liveroil in and has been found most beneficia in Discasses of the Chest, berofula, Lymphatic Discasses, Green Sickness, Muscular Actory, and Loss of Appesite. It regenerates the constitution in purifying the blood, it being the most power deputy and the present of the Scholen appearance of the Constitution of the Glands.

CONSUMPTION CUREDA!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the Langes. It promptly removes the most serious symptoms. The cought is relieved, night perspirations coase at the patient is rapidly respond to perspirations coase at the patient is rapidly respond to perspirations coase at N.B.—Be sure to see, that the signature of Grimmuit & Co., is salized to the bottle, as this Syrup is liable to mitations.

NO MORE DIFFICULT OR PAINFUL

DIGESTION ! DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delictous preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Constricts,
Gastralgia,
Long and Laborious Digestion,
Wird in the Stomach and Bowels,
Emaclation.
Jaundlee, and
Constant Complaints or the Liver & Loir

NERVOUS READACHE NEURALGIA.

DIARRHEA, DYSENTERY INSTANTLY CURED BY

Grimault's Guarana.

V This vegetable substance, which grows in the Brazils as been employed since time immemorial to cure Inflammatten of the Bowels. It has proved to be of the greatest service in cases of Cb. era as it is a preventive and a cure in cases of Diarrhoa.

GRIMAULT & Co.'s S7rup of Ferruginous Peruvian Bark. Chemists to H. R. H. Prince Napoleon, 43 rue Richelieu, Paris.

Paris.

This proparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect lumpidity and agreeable taste, this Syrul is taken with pleasure and suits the most delicate stomaches. It is par excellence the FERRIGINOUS TONIO which should be administered to indice of celleate constitution, ung persons backward in attaining the age of publicly, and to children of a weak conficution; and is particularly employed in the treatment of Cholorosis, Anema, Pile Ormidston, Gastrics Castralac Whites, Loucorrhea, Debility, Want of Appetite, Poverty Blood, &c.

No more Dyspepsia, Vomiting during Pregnacy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE Pepsine undergoes no alteration in this delicious pro-paration. It will consequently be preferred to Popsine Powders or Pills It is the digestive medicine par ex-cellence and is at the same time a most agreeable table Mossrs. Grimault beg to call the attention of the faculty

and the public in general to the fact that real pepsine prepared in France alone. It is far superior to all other often extracted from the stemach of porci.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the coelebrated Dr Ricord, and found greatly superior to all pikherto known mineral remedies and Copabla and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Propared by Lagasso, Jhemist, at Bordeaux, possesses the Baisumic and Resisous Properties of the Sea Pino. It is employed with success sealest affections of the thest, Oald, Throublits, Catarrh, Asthma, Induceza, Hooping Cough, etc.

Hair Vigor, For restoring Gray Hair to

Ayer's

is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.
Thin hair is thick-

ened, falling hair checked, and baldby its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations daugerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

disappear.

the system. With such change those complaints disappear.
For Bropsy and Bropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.
For Suppression a large dose should be taken as it produces the desired effect by sympathy.
As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Wharf Street,

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's Cherry Pectoral,

For Disenses of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to care the various affections of the lungs and throat, have made it known as a realistic protector against them. While adapted to an attend the same time the most effections of which was a constant of the same time the most effections. While adapted to an attend the same time the most effections, and the dangerous affections of the throat and lungs. The day of the same time the most effections of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

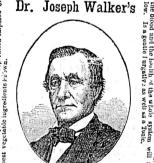

Although settled Consumption is thought incurable, still great numbers of cases where the discase seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zine, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we cases, and when the property of the content of the content

Ayer's Cherry Pectoral,

singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

MORE THAN 200,000 Persons Bear testimony to the Wonderful Effects of

Manufactured from the native Heibs and Roots California, an_ The Great Blood Purifie r. To

DRUGGISTS,

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Serofulous discase, where the system seemed saturated with corruption, have been purified and cured by it. Serofulous affections and disorders, which were agreated in such great numbers in almost radically cured in formed of its virtues or uses.

Serofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfult tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly developint one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional seems of the control of the body. Hence the occasional seems of the control of the body of the control of the same of this SAHSAPARILLA. St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Ilheum, Scalt Head, Ringarom, Sore Eyes, Sore Ears, and other cruptions or visible forms of Serofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Files, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Heart Disease, Fits, Epitepsy, Neuragia, and the various Uterrous affections of the muscular and nervous grain and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Lewearthea or Whites, Uterine Uterations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almana, supplied gratis. Rhermatism and Gont, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion of Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Lanquid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Dr. J. C. AYER & CO., Lowell, Mass.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

*29. The Great Blood Purifier. TO
FOR INFLAMATINE AND GRIGHLE PROMISER
AND GOUT. DYSPECTA OF INDICESTION. BILIOUS
REMITTENT AND INTERMITENT PEWER OF
THE BLOOD, LIVER, KIDNEYS and BLADDICK, these
BITTERS have been most successful. Such Disense are
caused by VIIIATED BLOOD which is generally produced by derangement of the digestive organs.
Cleans the vittated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions
or Sores; cleanse it when you find it obstructed and
alugariah in the venus; cleanse it when it is fool, and
your reclines will tell you when. Keep the blood healthy
and all will be well.
